GRI 102 Residential Construction, Appraisal, & Environmental Issues explores a variety of topics related to working in residential construction and appraisal. This course also addresses the environmental and health issues that impact properties.

Topics being covered:

- Pitfalls for clients, customers and REALTORS® when working with home inspectors.
- Structural and mechanical components of residential property.
- Information about site, structure and mechanical systems common to all housing.
- Typical environmental hazards and problems that affect residential real estate transactions.

Instructor

Barry Stranz
